

Enriquez Computer Services

Medical Billing Division

What we offer:

- Claims Process Management through Electronic Medical Billing and Tracking
- Customized monthly reports
- Rapid response to requests for information
- Certified, professional staff
- Latest online software and technology
- HIPAA compliant transactions

What we can do for you:

- Increase and accelerate your monthly collections.
- Track and reduce claims rejections and errors.
- Reduce your overdue and uncollected funds.
- Reduce your administrative staffing costs
- Free up your staff to work for you and for your patients.

Medical Billing Services

- Our claims-management process is targeted at ensuring quick, clean submissions and payment in a timely manner. We have a single focus of improving your collections by continually assessing your revenue cycle.
- We utilize latest software and technology to create electronic patient records and claims for fast, reliable submission - reducing costs significantly!
 - Remember < 1% of first time electronic claims are rejected
- We work with your payors and our clearinghouse to establish a close-knit, confidential and effective team.
- We don't collect money until you collect money as a unified team!

Pricing Programs

- **Percentage Pricing** – we charge a percentage of the money that we *collect*, as opposed to what we *bill*.
- **Hourly Fee Pricing** – this option works best for those practices that see few patients on a weekly basis
- **Overdue Funds Collection** – we work solely to collect the funds you have been unable to collect charging a percentage of what we collect.

Getting Started

- Complete the survey to get a picture of your current process and client database.
- Speak with owner, Aida Diaz, to tailor a program for your practice size.
- Our IT personnel encrypt and load your patient database following HIPAA guidelines onto our NY server (one time fee).
- We set up billing status with clearinghouse for you.
- We start processing your claims through weekly shipments!
